

# VBCH VIRGINIA BUSINESS COALITION ON HEALTH

## HOSPITAL REPORT CARD (YR 2004 Data) - Pneumonia

**Pneumonia is an infection in the lung caused by bacteria, viruses, or fungi. The infection may be acute (beginning rapidly) or chronic (lasting a long time). Bacterial pneumonia -- the most common kind in adults and children over age 3 -- is treated with antibiotics. Viral pneumonia is the most common kind in younger children.**

<b>Methodology</b>	<b>Leapfrog <a href="http://www.leapfroggroup.org">www.leapfroggroup.org</a></b>
Measures used to compare these hospitals are: the number of patients treated at each hospital, the percentage of patients who died (mortality), the percentage of patients who developed problems (complications), the average number of days people stay in each hospital (length-of-stay), and each hospital's average charges (costs). This report relies on Virginia All Patient Data (2004). The complications used are identified using guidelines from the Agency for Healthcare Research and Quality (AHRQ).	<b>LEAPFROG QUALITY &amp; SAFETY PRACTICES:</b> Electronic prescribing systems that intercept, and reduce errors by 50% or more, when they most commonly occur. <b>IPS:</b> Staffing ICUs with physicians who have credentials in critical care medicine has shown to reduce the risk of patients dying by more than 10%. <b>QI:</b> Quality Index: 27 safe practices that reduce risk of harm to patients in certain processes, systems or environments of care (National Quality For m).  <b>CPOE:</b>
<b>Legend</b>	
<b>Patients Per Year:</b> Number of patients treated at each hospital <b>Mortality:</b> % of patients who died while being treated Lower numbers are better. <b>Complications:</b> % of patients who developed problems while being treated <b>Iat:</b> Iatrogenic or Care Related Complications <b>DeU:</b> Decubitus Ulcer <b>LOS:</b> Average number of days people stay in the hospital for treatment. <b>Cost:</b> Average hospital charges for treatment; excludes physician fees and outpatient services.	**** Fully implemented *** Good progress in implementing ** Good early stage effort in implementing * Willing to report; did not meet criteria for good early stage effort. N/A-Not Applicable (These hospitals were not in target area in 2004) The Virginia Business Coalition on Health is a Regional Roll-out Leader for the Leapfrog Group for Patient Safety Hospital Survey.
